# FALL Cell and Developmental Biology Rotation Summary

**Students, please answer the six questions on this 2-page form within the spaces provided and return it to your mentor who will complete the form and return it. This form is due to Shannon Hall no later than the last day of this rotation.**

**Student Name: _____**

**Rotation #: _____ Dates From-Through: _____**

**Name of Laboratory: _____**

1) What is the main research goal of this laboratory and how did your rotation project fit into the larger research effort?

2) Did your project examine a particular hypothesis or were you perfecting a technique for your rotation project? What was the hypothesis?

3) What was your experimental design and what results did you obtain?

4) Are your results statistically significant or do more results need to be obtained before you know the answer to your scientific question?

5) What do your results mean?

6) What would be the next step in continuing your project (if you had more time or for the next person)?

**Rotation Mentor Signature**: _____

**Mentor Comment on Rotation Student Performance:**
